

Bitmap or Scanned Objects should have at least 85 pixels per inch (dpi) resolution at the size they are placed in this document. Resolutions below this level will become blurry and/or pixelated.

LIVE AREA (yellow)

Keep all text and important graphics inside the yellow area to prevent them from being turned to the back or sewn through.

Bleed Background to the Edge of the **Orange Box**.

Convert all type elements to outlines using the "Create Outlines" option in the TYPE menu.

Finished Flag Edge

Our digital printers use quasi-CMYK inks optimized for banner printing. If you specify PANTONE formula spot colors please understand that some of these colors cannot be reproduced. We use sophisticated color management software that will try to get as close as possible within the color gamut of our printers, but the color will not match the Pantone formula guide book. If color is critical to your job, you will need to purchase a sample print of your artwork for color approval. Please contact your customer service representative for more details.
