

**DO NOT DELETE
THE RegMarks, Drill Holes
or CutPath Layers. They
are REQUIRED for Production.**

**Bleed Background to the Edge of the
yellow box.**

**Bitmap or Scanned Objects
should have at least
85 pixels per inch (dpi) resolution
at the size they are placed in
this document. Resolutions below
this level will become blurry
and/or pixelated.**

**Please convert ALL type elements
to outlines using the “Create Outlines”
option in the TYPE menu.**

Our digital printers use quasi-CMYK
inks optimized for banner printing.
If you specify PANTONE formula spot
colors please understand that some
of these colors cannot be reproduced.

We use sophisticated color management
software that will try to get as close as possible
within the color gamut of our printers, but
the color will not match the Pantone formula guide book.
If color is critical to your job, you will need to purchase a
sample print of your artwork for color approval.
Please contact your customer service representative
for more details.
